L.397/Holland/2(B.1.B) 1st. July, 1943.

Dear Dick,

Further to our correspondence about Nicolaas de WILDE, last mentioned in my L.397/Holland/2 of the 20th. June, you told me that your Dutch Section had had word that this man had been arrested in Paris by the Germans. I should be interested to have any details which you have relevant to this arrest, if any further are available.

In the meantime I am wondering whether it would help your investigations if we made arrangements to see the "C" character referred to in my letter of 20th. June. This man, for your information, was named [redacted], and he was operating in Holland for some time before he came to this country last month. While in Holland he was connected with VORRINK in certain illegal press activities, but owing to pressure of time at the L.R.C. he was not asked for recent information about VORRINK. The L.R.C. tell me that they think [redacted] is known personally to Bingham of your Dutch Section, and it may be that Bingham has already had a talk with [redacted]

If any interview should be thought necessary, I should like the opportunity of sending a line to Section V. about it, in case they should complain that they should have been consulted.

Yours sincerely,

Major R.H. Warden, P.S. *I think he is already interviewed S.O.E.*

*I may want to interview 8 Glasgow  
H/CE SS & make apppt.  
Rev 5/7.*
